SAME IN NEVADA

Bills creating a number of new commissions have been introduced in one or both branches of the legislature. There are some commissions that are really necessary but in too many instances commissions are created for the sole purpose of providing an easy berth for some politicians out of a job. These measures ought to be scrutinized with a great deal of care and if doubt exists as to its necessity members of the legislature should give the taxpayers the benefit of the doubt and vote against them.-Woodland, Cal.
